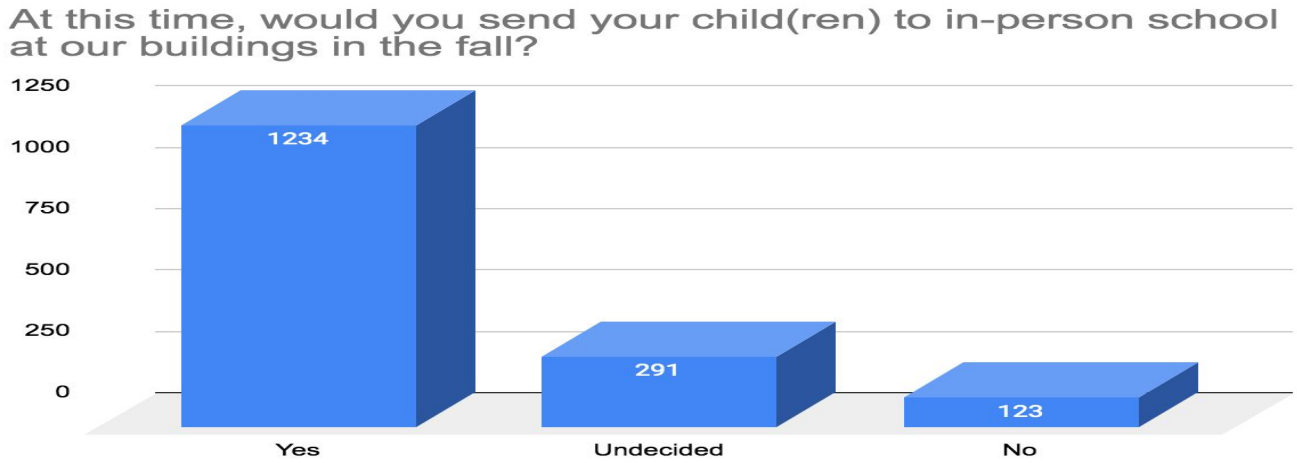
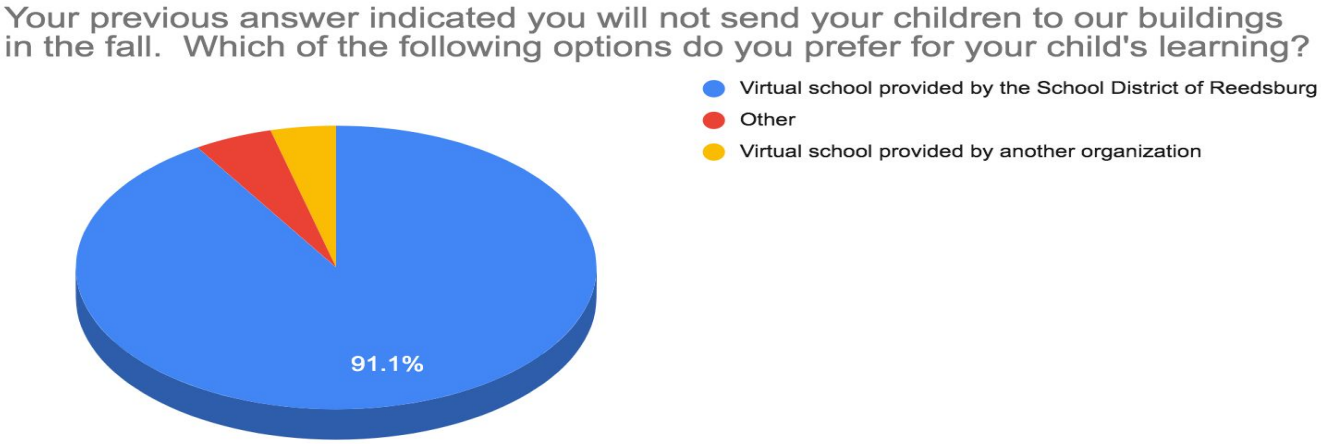
Back to School Survey Results - Board Report

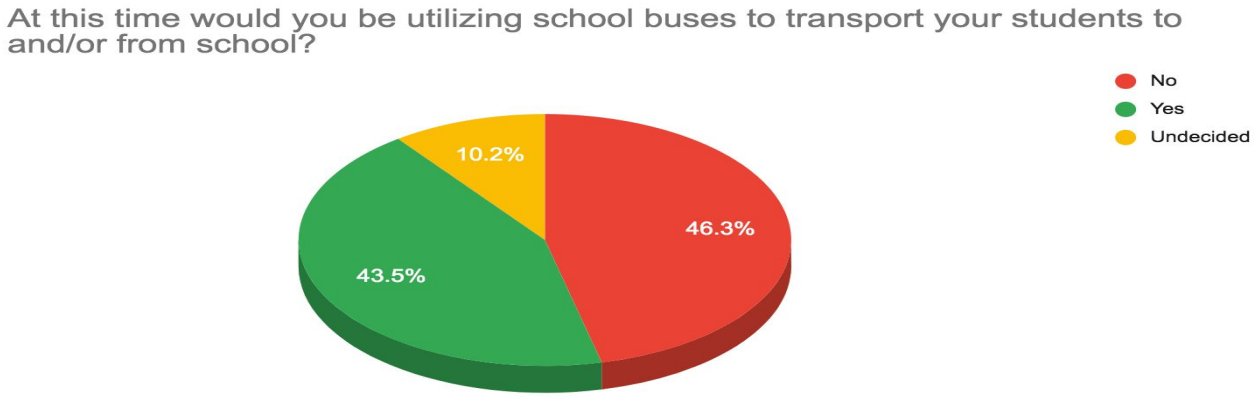
Responses: Parents: *1649
Staff: 298 (includes support staff)
Students: *342 (grade 6-12 students)

* The parent and student survey were also sent out in Spanish.

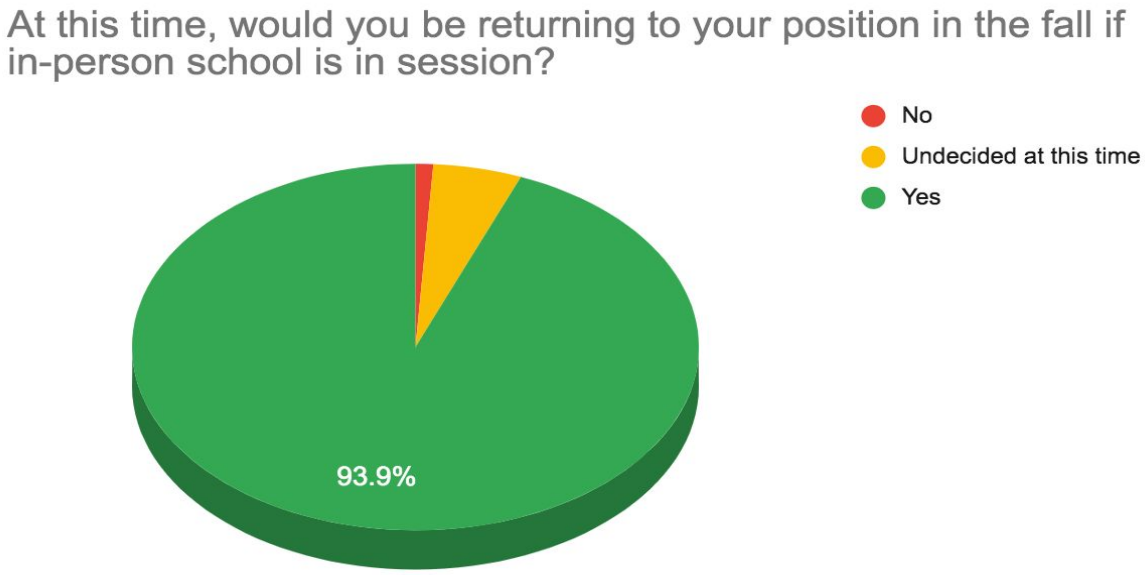
Parent ONLY Questions:







Staff ONLY Question:



Note 1: Three staff members indicated they were not coming back. All three of these were known to the administration prior to the survey.

Note 2: For parents and staff who answered: “Undecided,” a follow up question was asked about their concerns. The majority of these comments were concerns about what safety procedures the district would implement, and the status of COVID-19 area infections at the start of the school year. Several others mentioned having a high-risk individual living in their household.

Questions of support for school scheduling questions - answered by all groups

Parents

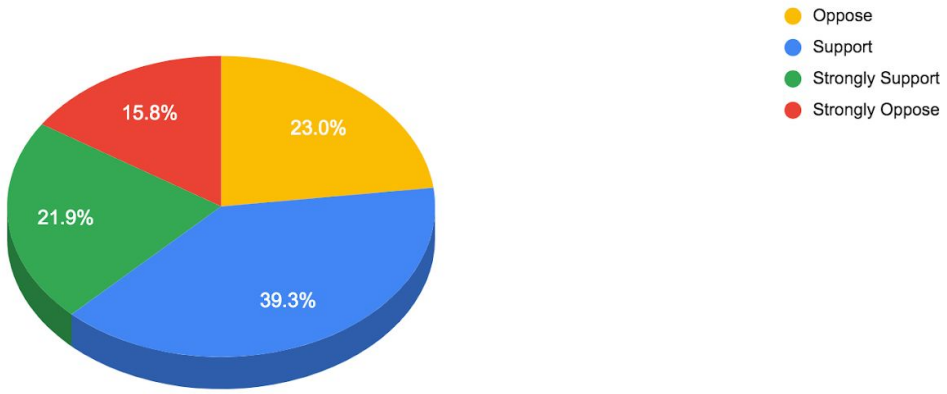
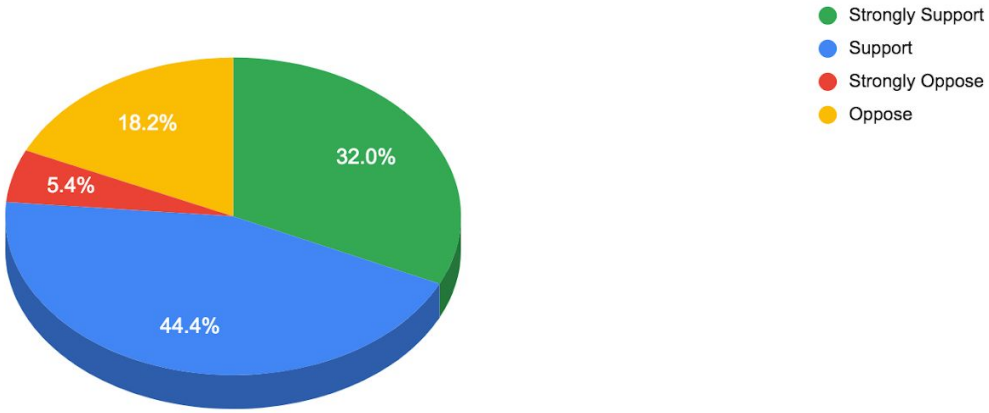
Schools should require masks or face shields for staff members whenever possible.



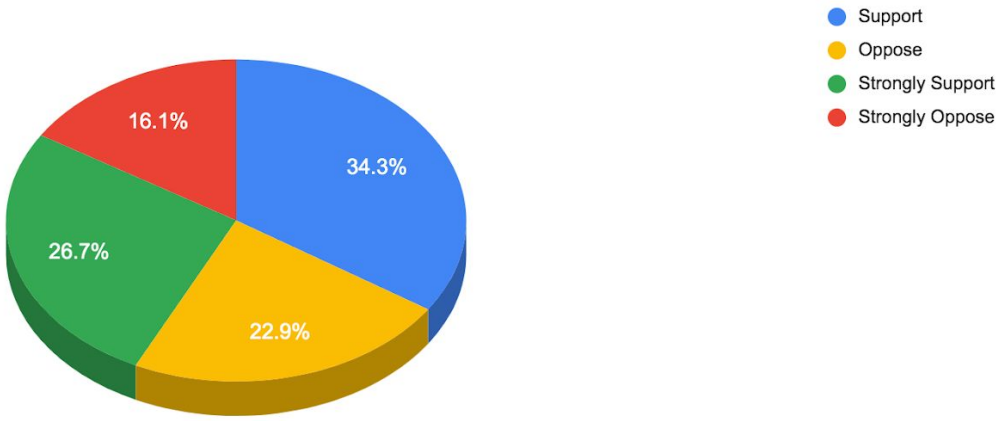
Staff

Schools should require masks or face shields for staff whenever practical.



Student

Schools should require masks or face shields for staff whenever practical.



Note 3: All groups were asked an optional follow up question about any other safety precautions they wanted to comment on. Most of these comments mentioned other precautions such as hand sanitizer, physical distancing, enhanced cleaning, temperature checks, and staff/student screening.

Note 4: All groups were also asked a final open ended optional question about any further comments. The following received multiple mentions:

- Negative impacts of not having kids in school full time.
- Difficulty of enforcing safety procedures
- Concerns with busing
- Concerns about students with disabilities
- Responses may change as virus status changes
- High school aged children handle virtual learning much better than younger children
- Difficulty of finding substitute teachers
- What will happen when a teacher or student tests positive for COVID-19?
