# Putting Long-Term Facilities Planning into a Broader Context

# Strategic Planning...

- ★ Creates a shared vision and direction for all stakeholders.
- ★ Establishes outcomes for which we all accept responsibility.
- ★ Puts the vision into objectives that can be tracked and communicated over time.
- ★ Leverages resources to ensure support for priority work.
- ★ Focuses on *results*.

# Strategic Planning as a Part of Board Governance

### The Lighthouse Study (Rice et al., 2001):

"Moving" School Boards...

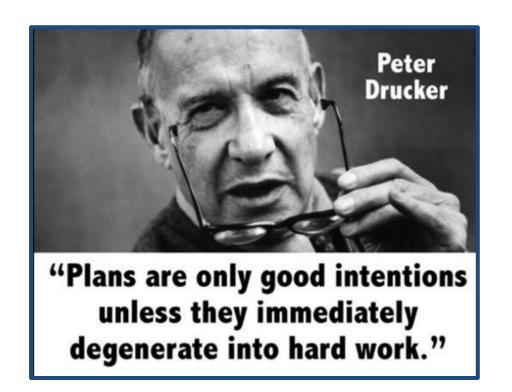

- → Made student achievement needs the focus of their decision making.
- → Described a clear direction and focus on specific goals related to improving student achievement.
- → Held high expectations for *all* students.
- → Expressed an intense focus on finding ways to reach *all* children.
- Consistently expressed their belief that all children could learn.

# Strategic Focus Areas

- Rigorous Academic Programs and Career Pathways for All Students
- 2. Continuous Improvement of Student Growth and Achievement
- 3. Innovative Facilities with Modern Learning Environments
- 4. Personnel Excellence: Attracting, Developing, and Retaining High Quality Staff
- 5. Responsible Fiscal Management: Funding our Priorities and Demonstrating a Return on the Public's Investment in our Schools.
- 6. Branding the School District of Reedsburg: Communicating and Marketing that Brand.

### 2022-23 Tactical Plans

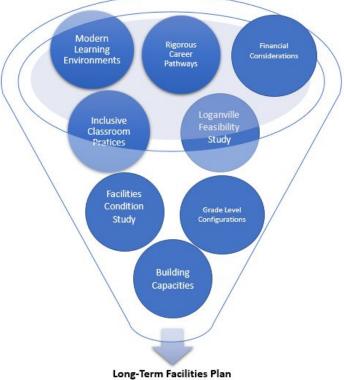

# Innovative Facilities with Modern Learning Environments

- Develop a long-term facilities plan for Board adoption no later than the April 2023 Board meeting.
- Finalize the development of a 10-Year Capital Projects Plan for Board approval.

### LONG-TERM FACILITIES PLANNING

The School District of Reedsburg is focused on creating innovative facilities with modern learning environments that will support rigorous academic programs and career pathways for ALL students. The aim of long-term facilities planning is to map out, over time, how existing facilities can best be adapted to support future educational programming, which aging buildings should be considered for replacement, and when deferred maintenance needs should be addressed.

# Key Takeaways from October 12 Workshop

- Long-term facilities planning IS strategic planning.
- The product of this work will not be a single project but a long-term plan that outlines a number of potential projects over time.
- The plan will encompass what the district can do for ALL students to impact their overall learning experience, growth, and achievement in flexible and adaptable spaces.
- Instructional spaces can and should be designed with instructional approaches and programs in mind.
- With an eye on the future, the plan will consider designs that can easily and cost-effectively change over time as instructional needs evolve.
- Responsible fiscal management and planning will help create a road map that will address all District facilities needs over time.
- Throughout the planning process, there will be opportunities for engagement with a variety of stakeholders, including community, families, the school board, staff, and students.
- The District is committed to ongoing communication and transparency throughout the plan development.
- We will keep in mind our vision to provide a world-class educational experience to all students as we move through the process of long-term facilities planning.

# Success Criteria: How Did We Do?

- ✓ Gain a better understanding of the master planning process and timing.
- ✓ Understand Board member hopes and apprehensions about the work ahead.
- ✓ Determine the role of the Board as a part of the planning process.
- ✓ Leave with common messaging about the process and the next steps in the work.
